Professor Frank G. Holz

University Eye Clinic Bonn

Get more information
and register here!

At this year's ISS, we are moving out of the SPECTRALIS orbit, discovering and expanding new horizons of knowledge.

The ambitious scientific program focuses on retinal imaging and offers lectures on the following topics:

- Oculomics: Ophthalmic Biomarkers in the Context of Systemic Health
- AMD with Focus on Geographic Atrophy
- New Insights through High-Resolution OCT
- Medical and Surgical Retina
- New Technologies on the Horizon
- Artificial Intelligence in Retinal Imaging
- Importance of Data Management and Analysis

Heidelberg Congress Center
Czernyring 20, 69115 Heidelberg

June 13th–14th, 2025
